## THE WILDLIFE CONSERVATION AND MANAGEMENT ACT

(Cap. 376)

## EWASO ENCLAVE CONSERVANCY MANAGEMENT PLAN, 2025-2035

IN EXERCISE of the powers conferred by section 44 (3) of the Wildlife Conservation and Management Act, the Cabinet Secretary for Tourism and Wildlife publishes the Plan set out in the Schedule hereto.

## SCHEDULE

Ewaso Enclave Conservancy Management Plan 2025-2035 (hereinafter referred to as "the Plan") defines the goals, objectives, and actions that Ewaso Enclave Conservancy (hereinafter referred to as "the Conservancy") has designed to address wildlife conservation, rangeland management, tourism development, community engagement, and the Conservancy's operations and security.

The Conservancy's vision, zonation scheme, management programmes and plan implementation strategy are presented in the following sections.

## 1. Vision

The Ewaso Enclave Conservancy strives to achieve its vision of being:

*A center of excellence in sustainable wildlife, ecosystem and tourism hub in Laikipia.*

## 2. Land Uses and Zones

The Conservancy's primary land uses are wildlife conservation, tourism development and livestock production. The plan outlines a zonation scheme to guide land use within the conservancy. The scheme comprises three zones: Main Conservation Area Zone, Proposed Sanctuary Zone, and Tourism Facilities and Development Zone.

## 3. Management Programmes

The Plan comprises four management programmes that address the key issues affecting the Conservancy. These programmes are summarised in the following sections.

### 3.1 Wildlife Conservation and Rangeland Management Programme

The purpose of the Wildlife Conservation and Rangeland Management Programme is to sustainably conserve and maintain healthy, diverse wildlife and natural habitats that supports a balanced ecosystem. The programme seeks to achieve this purpose through implementation of management objectives that focus on: strengthening wildlife habitat management to enhance species performance, improving management of other habitats and climatic variables, and promoting the reduction of human activities that may exert pressure on the habitat.

### 3.2 Tourism Development and Management Programme

The goal of the Tourism Development and Management Programme is to develop Ewaso Enclave Conservancy as a preferred tourism destination within Laikipia North Sub-County. This will be accomplished through the implementation of management objectives that focus on: identifying and promoting tourism products, developing tourism infrastructure and associated amenities, and developing a tourism strategy.

### 3.3 Community Outreach and Engagement Programme

The Community Outreach and Engagement Programme endeavours to undertake conservation education awareness, and livelihood support initiatives to empower local communities. The programme's key management objectives focus on: promoting social projects, enhancing conservation education and awareness, and improving community opportunities and benefit sharing.

### 3.4 Operations and Security Programme

The overall goal of the Operations and Security Programme is to strengthen the Conservancy administrative and management systems for effective natural resource management. The programme seeks to achieve this purpose through the implementation of a series of objectives that prioritize: enhancing staff welfare and motivation by maintaining a skilled workforce; maintaining sufficient and efficient equipment and infrastructure; attaining financial sustainability; developing Standard Operating Procedures for main conservancy operations; identifying and recruiting essential staff; embracing technology in management and security operations; ensuring that the conservancy management is working with other stakeholders; enhancing security of visitors and wildlife; and establishing institutional collaborative partnerships.

## 4. Plan Implementation, Monitoring and Evaluation

A monitoring framework has been developed to guide the assessment of the plan's implementation over its 10-year life cycle. The framework outlines the desired positive impacts of the programme objectives, as well as any potential negative impacts that may arise. The framework further provides clearly defined, measurable and quantifiable indicators for assessing these impacts, along with potential sources of the required information.

The Plan is deposited at the offices of the Director General, Kenya Wildlife Service along Langata Road, and the Chairman Board of Trustees, Ewaso Enclave Conservancy whose addresses are provided below:

COUNTY GOVERNMENT OF KITUI

KITUI COUNTY PUBLIC SERVICE BOARD

REPORT ON THE EXTENT OF COMPLIANCE WITH VALUES  
AND PRINCIPLES OF ARTICLES 10 AND 232 OF THE  
CONSTITUTION IN THE KITUI COUNTY PUBLIC SERVICE

DECEMBER, 2023

FOREWORD

*The Kitui County Public Service Board is established under section 57 of the County Governments Act*

The County Public Service Board is required, under Section 59 (1) (f) of the County Governments Act, to evaluate and report to the County Assembly on the extent to which the values and principles referred to in Articles 10 and 232 are complied with in the County public service.

Under the Constitution, the public service has specific obligations whose objective is to provide a solid base for the effective and efficient delivery of public services. One of these foundations is expressed in terms of the values and principles as articulated in Articles 10 and 232 of the Constitution. The evaluation on the extent to which the public service has complied with these values and principles provides a mechanism for confirming the progress realized in the fulfillment of the obligations.

The report has analyzed the current situation for the values and principles and the actions taken by the Board to increase the levels of compliance. Findings in this evaluation report show that, during the period under review, the County Government continued to realize significant levels of compliance.

While the County has made unlimited efforts in improvement of levels of compliance with values and principles, there is still a lot to be done. The Board would wish to request for cooperation from various arms of the County Government in the journey of promoting values and principles.

I take this opportunity to thank the County Executive, with the leadership of H.E the Governor, and the County Assembly for their untiring efforts in instilling a culture of continuous improvement on compliance with values and principles in the County Government of Kitui.

CHAPTER ONE: THE EXTENT OF COMPLIANCE WITH  
VALUES AND PRINCIPLES

PREFACE

This chapter enumerates the activities that demonstrate the extent to which the values and principles referred to in Articles 10 and 232 are complied with in the County public service. It also explains the actions taken by the Board in the promotion of the specific values and principles.

THE EXTENT OF COMPLIANCE

2.1 ARTICLE 10: NATIONAL VALUES AND PRINCIPLES OF GOVERNANCE

*(A) Patriotism, National Unity, Sharing and Devolution of Power, the Rule of Law, Democracy and Participation of the People*

*Situational Analysis*

The County Government has been unable to meet the 30% requirement on ethnic minority which could have enhanced National unity. This has been due to the region being a hardship area and as a result not attractive to job seekers from other parts of Kenya. Political ethnic profiling has also contributed to people tending to serve in their ethnic backyards, this has resulted to more officers requesting for transfer of services to other Counties.

*Action Taken*

The Board continues to advocate for patriotism and as a result, County colours and symbols are incorporated in all official County documents, information, education and communication materials, projects' branding, directional signage to County offices and painting of County Government buildings. The National and the County flags are being hoisted within the County Government offices and singing of National and County anthems is highly emphasised. The County Government continues to participate in National holidays while ensuring that County offices have portraits of the President of the Republic of Kenya.

The Board has, and continues to draw the attention of the County employees to the documents uploaded on the County website which include the Constitution of Kenya 2010, Kitui County Human Resource and Procedures Manual 2018 and other relevant laws.

The Board continues to encourage job applications from all parts of the County through making advertisement of job opportunities in high circulating National newspapers and in Kitui County Website (a standard policy). The Board has always advocated for better working conditions for all employees across the County.

It is in this year that, the Board recruited the first lot of Member – Mwingi Municipality after Mwingi town was elevated to Municipal level. This was not there in the Kitui County Public Service. The Board also advertised for the position of Member – Kitui Municipality for the second time since devolution.

Democracy and participation of the people has been and continues to be realised through policy formulation forums; the education forums, public participation on Finance Bill and other stakeholder consultative meetings on development which are highly publicised. The County Government has developed a program for Community Level Infrastructure Development where each Ward is allocated a certain budget for activities they consider important through public participation forums.

*(B) Human Dignity, Equity, Social Justice, Inclusiveness, Equality, Human Rights, Non-discrimination and Protection of the Marginalised*

*Situational Analysis*

Review on the compliance regarding human dignity, equity, social justice, inclusiveness, equality, human rights, non-discrimination and protection of the marginalised was done during this calendar year. The social facilities within the County Government offices were sufficient only that some ablution blocks were lacking gender labels. Some markets lacked public toilets and some have dilapidated and need renovation.

Analysis of the composition of the County public service was done. It was established that the legal requirements for youth and gender in appointments had been met; however, there is still need for concerted effort to address the requirements for persons with disability and the marginalised.

The Board has noted inconsistencies in the schemes of service being applied in promoting, re-designating and handling other Human Resource issues that needs the same and has initiated gradual customization so as to harmonize the gaps.

*Action Taken*

The County Government to constructing more ablution blocks in public places like markets, schools and bus parks and create awareness

to the general public to construct pit latrines in their homes in an effort to ensure that Kitui County realise zero open defecation to promote human dignity as well as renovating the existing social amenities.

The Board is fully committed to continuous monitoring of compliance to ensure that the ratio of male to female employees remains within the constitutional threshold. The Board has liaised with the National Association of Persons with Disability to keep them abreast with all the adverts in an effort to bridge the gap of meeting the constitutional threshold on recruitment of persons with disability.

The Board has enhanced the methods of advertising for job vacancies, including use of County Website, social platforms and distributing copies of the adverts through County Administration (Ward and Village Administrators) to ensure that more potential applicants from all regions get the information and in good time. Affirmative action is being undertaken to address the disadvantaged groups such as minority ethnic communities in the County (e.g. the Tharaka, Arab, Somali, Muslim), persons with disabilities, youth and women.

The County is mainstreaming HIV/AIDS, gender and disability in implementing various policies as can be reflected in the segmentation of County contracts and also in appointments. The County Government is working with development partners and faith based organizations such as Centre for Health Solutions, Christian Blind Mission (CBM), Centre for Disease Control (CDC), Centre for International Health, Education and Biosecurity (CIHEB) and Christian Health Association of Kenya (CHAK) to address HIV/AIDS among other health care issues.

The County Government has continued to prioritise projects on water such as roof water harvesting systems (Water Tanks), drilling and rehabilitation of bore holes, construction / De- silting of earth and sand dams as well as water reservoirs to ensure that County residents, especially those in arid and marginalised regions, have access to portable water for drinking and other purposes.

The Board is in the process of modifying the Schemes of Service in order to fit the situation in Kitui Public Service and ensure fair and equal treatment of staff working in the same career line. This is will ensure staff have grown career wise and a proper succession management. So far, the Board has accomplished customizing the ECDE Teachers Scheme of Service. The Enforcement Scheme of service is being finalized as well so as to address the gaps identified.

#### *(C) Good Governance, Integrity, Transparency and Accountability*

##### *Situational Analysis*

County Ministries/Departments have developed service charters in both English and Kiswahili versions this includes the new Departments established by the current Government. The mechanisms for monitoring integrity, transparency and accountability in the County public service are in place.

##### *Action Taken*

The Board has advised on the need to implement the service charters fully. The complaints handling procedure has been streamlined in the County Government and employees have been sensitised on complaints handling. There are suggestion boxes in every Ministry for officers and general public to channel their grievances.

In order to enhance transparency and accountability, each project goes through the process of public participation to ensure involvement of the people in development issues. Each project have signage which details the contractor, supervisor, source of funds and the financial year it was initiated

#### *(D) Sustainable Development*

##### *Situational analysis*

Kitui County Integrated Development Plan (KCIDP), which highlights the development needs of the County, has continuously guided the County development projects. The development projects contained in this document have been evaluated based on their sustainability. As a result, the projects initiated are considered viable and sustainable. The incumbent Governor has already initiated the third CIDP (CIDP III) for the next five years.

##### *Action taken*

The County Government continues to implement projects in compliance with the KCIDP which is modelled on the Kenya Vision

2030 and the Sustainable Development Goals. The County Public Service Board has successfully continued to provide the human resource necessary for the implementation of planned activities.

Agriculture, Health care reforms, Education, Mineral Resources, Tourism, Road Connectivity, Information and ICT, Women and Youth empowerment programs and programs that support PLWD, Micro and small enterprises-scale business across Kitui County, Rural electricity and Boda boda Sector among others are pillars of H.E the Governor's manifesto meant to not only spur the growth of the County economy but also improve the citizens' livelihoods.

The County Government has started construction of Industrial Park at Kanyonyoo market. This will bring more goods and services to the people of Kitui under one roof. The activities will also grow the town attracting more and big companies around, it is also aimed at creating employment for Kituians.

Kitui County is among the Counties that has recruited the Community Health Promoters (CHP) an activity that was officially released by the President of the Republic of Kenya whose aim is to educate people on matters of health at village/ grassroots levels, promote good health practices, make referrals for individuals who need more health checks, and monitor their progress after treatment among other duties. Kitui County currently has 2,470 Community Health Promoters. Their work cannot be ignored as it will have immense impact on health of common citizens as well as improving their wellbeing since they are paid some stipend which is a way of creating employment.

Kitui County Government has installed an Oxygen Plant in Kitui County Referral Hospital which is made to produce oxygen for Kitui County Hospital, the project is in its initial stage and the people of Kitui have great hopes on the project as patients will not lose their lives because of lack of oxygen in our hospitals.

Kitui County has also installed a cancer centre at Kitui County Referral Hospital, which is aimed at taking care of the cancer patients instead of travelling to Nairobi and other parts of the Country with the machine for cancer patients. This is a milestone away from losing people out of the deadly silent disease.

In the course of the calendar year, H.E The Governor officially opened an Intensive Care Unit (ICU) for patients who are in the verge of losing their lives. Kitui County currently has two (2) ICU beds at Kitui County Referral Hospital.

#### 2.2 ARTICLE 232: VALUES AND PRINCIPLES OF PUBLIC SERVICE

##### *(A) High Standards of Professional Ethics*

##### *Situational Analysis*

Standards of professional ethics were evaluated on the basis of code of conduct and ethics for officers in the public service; training for skills development; membership to professional bodies and declaration of income, assets and liabilities.

There was moderate compliance with professional ethics following continuous sensitization workshops and training.

##### *Action taken*

Sensitisation programmes on values and principles aimed at creating awareness, development of teamwork, improvement of service delivery and overall culture change in the County public service were undertaken.

To increase access to knowledge on the officers' professionalism, the Board has been drawing the attention of the County Government employees to the relevant legislations and laws which have been uploaded to the County website.

Being a wealth and liabilities declaration period, the Board is keen on ensuring all staffs are in compliant of the same.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(Cap. 387)

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT  
FOR THE PROPOSED COMMERCIALIZATION OF  
GENETICALLY MODIFIED CASSAVA IN KENYA

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Co-ordination Act, Cap. 387, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kenya Agriculture and Livestock Research Organization, proposes to commercialize genetically modified cassava in 18 counties across Kenya (Lamu, Kilifi, Kwale, Taita Taveta, Makueni, Kitui, Machakos, Tharaka Nithi, Embu, Nakuru, Baringo,

Kakamega, Bungoma, Busia, Vihiga, Kisumu, Migori and Homabay) with robust and durable resistance to CMD (cassava mosaic disease) and CBSD (cassava brown streak disease).

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation Measures
Illegal release and inadequate access to planting material	<ul style="list-style-type: none"> <li>• Prevent illegal release of stem cuttings within confined fields until all approvals are acquired.</li> <li>• Engage in seed multiplication of the approved varieties for availability of clean planting materials.</li> <li>• Segregate the best performing GM varieties based on their suitable agro-ecological zones.</li> <li>• Institute prior mechanism using existing protocols for an all-inclusive varietal naming exercise.</li> </ul>
Non-adherence to existing protocols	<ul style="list-style-type: none"> <li>• Adhere to all relevant local and international policies, legal and regulatory frameworks.</li> <li>• Ensure prior acquisition of all regulatory approvals from NBA, KEPHIS and NEMA before commercial release.</li> <li>• Ensure adequate public participation is undertaken during the ESIA exercise to foster public awareness.</li> </ul>
Perceived food Safety concerns	<ul style="list-style-type: none"> <li>• Availability of NBA approval declaring the GM cassava varieties as safe for food, feed and environment.</li> <li>• Possession of the approval for commercial release is an indicator that all safety protocols have been met and ascertained.</li> </ul>
Poor Access & availability of planting material	<ul style="list-style-type: none"> <li>• Foster collaborative engagements with County governments to facilitate smooth flow of information.</li> <li>• Collaborate with existing cassava partners to offer training to cassava seed entrepreneurs to enhance seed multiplication.</li> <li>• Establish demonstration farms in KALRO satellite stations undertaking multiplication and bulking of cultivars</li> </ul>
Limited Knowledge	<ul style="list-style-type: none"> <li>• Utilize the existing KALRO stations undertaking multiplication and bulking of cultivars to offer practical sessions to all relevant stakeholders.</li> <li>• Partnership with County agricultural extension officers to disseminate information to farmers on suitable GM cassava varieties.</li> <li>• Conduct trainings and sensitization workshops to create awareness on the best cultivation practices for best production levels.</li> </ul>
Poor storage techniques	<ul style="list-style-type: none"> <li>• Adopt traditional storage mechanisms to extend shelf-life of harvested GM cassava.</li> <li>• Embrace the use of hermetic bags for cassava storage which is a chemical free method.</li> <li>• Train farmers on small-scale processing of cassava into basic products</li> </ul>
Climate change variability	<ul style="list-style-type: none"> <li>• Adopt the GM cassava as a high value crop and fast track completion of CAIPs to provide decentralized, climate-smart storage and processing facilities.</li> <li>• Encourage staggered planting seasons to minimize oversupply during harvesting periods and minimize post-harvest losses.</li> <li>• Farmers to adopt climate-smart farming practices.</li> </ul>

<b>Impacts</b>	<b>Mitigation Measures</b>	<b>Impacts</b>	<b>Mitigation Measures</b>
	<ul style="list-style-type: none"> <li>Encourage adoption of climate-smart GM cassava varieties through selection of approved varieties considered tolerant to drought and heat.</li> <li>Farmers to embrace water management measures to mitigate against drought effects.</li> <li>Sensitize farmers to employ integrated pest and disease management strategies.</li> </ul>	toxicity fears	permissible limits.
Pest & Diseases	<ul style="list-style-type: none"> <li>Commercially release the GM cassava varieties resistant to CMD &amp; CBSD.</li> <li>Ensure farmers can access clean planting materials in KALRO stations.</li> <li>Discourage farmers from acquisition of planting materials from uncertified sources</li> <li>Encourage farmers with adequate land to be trained as cassava seed entrepreneur (CSE) to avail clean planting materials.</li> </ul>		<ul style="list-style-type: none"> <li>The low cyanogenic levels make all the approved 8 varieties sweet thus eradicating the bitter varieties.</li> <li>The approved GM cassava varieties will guarantee more safety to farmers who consume cassava leaves as vegetables due to the low cyanogenic levels.</li> </ul>
Soil contamination	<ul style="list-style-type: none"> <li>Farmers to practice crop rotation and diversification to maintain healthy soils.</li> <li>Promote the adoption of genetically modified cassava varieties resistant to diseases.</li> <li>Farmers to adopt sustainable farming practices such as contour cultivation, closer plant spacing etc</li> <li>The GM cassava varieties release to eradicate the application of chemical insecticides thus lowering pesticide residues in soil, water and food.</li> </ul>	Cultural perceptions e.g. poor man's crop	<ul style="list-style-type: none"> <li>Promote public awareness and sensitization on cassava production to adopt and consider the crop's importance based on nutritional value and financial benefit.</li> </ul>
Water loss	<ul style="list-style-type: none"> <li>The drought-tolerant GM cassava will ensure sustainable management by thriving in hot and dry regions with water-scarcity.</li> <li>Similarly, to the convention varieties, the approved GM cassava will self-regulate through natural processes.</li> <li>Canopy formation in the GM varieties during its growth period will reduce evaporation in the soil surface.</li> <li>Encourage farmers to apply mulch (e.g. organic straws or leaves) around the base of young cassava.</li> <li>Encourage farmers to periodically undertake weed control.</li> </ul>	Prolonged maturity period	<ul style="list-style-type: none"> <li>All approved varieties have an early maturity period of between 8-12 months therefore inspiring its adoption by farmers who had shifted to other fast-growing crops.</li> </ul>
Public fear due to misconceptions	<ul style="list-style-type: none"> <li>Engage in continuous targeted public sensitization and awareness campaigns.</li> <li>Set up demonstration farms within KALRO satellite stations to promote practical learning and observation for farmers and other stakeholders.</li> <li>NBA can consider spearheading a nationwide campaign to sensitize the public on the importance of GM crops developed using biotechnology.</li> </ul>		<p>The full report of the proposed project is available for inspection during working hours at:</p> <p>(a) Principal Secretary, Ministry of Environment, Climate Change and Forestry, NHIF Building, 12th Floor, Ragati Road, Upper Hill, Upper Hill, P.O.
